- Considered to be the "most original and unmolested pre-war Armstrong Siddeley known to the club"

- Extensive history file and original handbooks

This charming Armstrong comes from a deceased estate. The first keeper was a Mr E G Kent esq of Surrey and was later owned by the Chairman of the Armstrong Siddeley Owners Club who retained it for 30 years. 'PJ 3574' then passed to the deceased vicar who acquired it in 2011. Finished in Green over Black and trimmed in Black leather it features both a smoker's companion set and a ladies one complete with scent bottle, note book and silver pencil. 'PJ 3574' was the subject of a six page feature in the December 1984 issue of the Automobile magazine and is apparently considered to be the 'most original and unmolested pre-war Armstrong Siddeley known to the club'. It is now offered complete with its original sales invoice and owners' handbook, large collection of period letters, buff log book, lubrication chart, invoices and old MOTs.
