This right-hand drive R107-series Benz was imported from Guernsey and sports Blue bodywork that's teamed with Blue leather interior trim. It has apparently had just three former keepers and the vendor presently regards its upholstery, six-cylinder engine and automatic transmission as all being in 'very good' condition, and the bodywork and paintwork as 'good'. Overall he describes the SL as 'a great runner - a useable car with very good maintenance history'. He is now selling it complete with: hard top; all its original manuals, including the service book containing 21 main dealer and marque specialist stamps; many invoices including one from the SL Shop; and numerous MOT certificates, including one valid until March 28 next year. 'UUY 683Y's odometer currently registers 100,000 miles. The 2.8-litre (280) SL appeared in mainland Europe in 1974 and in the UK from October 1980. It remained in production until 1985, when it was replaced by the 300 SL.
