

## Imperial War Museum Duxford (168)

Wed, 15th Nov 2017

### Lot 4

**Estimate:** £3000 - £4000 + Fees

**1966 Triumph TR4A IRS**

**Registration No:** RNK894D

**Chassis No:** CTC696260

- Desirable right-hand drive TR4A IRS in barn find condition
- Long term ownership by its previous keeper from 1976 to 2015
- Offered with old style V5, collection of invoices and MOT's from the 1970's

Though based on the chassis and drivetrain of the TR3A, the TR4 cut a more modern dash, thanks to an all-new Michelotti-styled body. Engine capacity was now 2138cc and other mechanical updates included a wider track front and rear, rack and pinion steering and an all-synchromesh gearbox. The optional overdrive was now made to operate on second and third. This desirable right-hand drive TR4A IRS is in barn find condition and is finished in Red with a Black interior. The TR is offered with old style V5, collection of invoices and MOT's from the 1970's and had been in long term ownership by its previous keeper from 1976 to 2015. It's understood to have been off the road for many years, however we are informed it was started in 2016, and is now in need of an extensive restoration. We are told it is mostly complete making this example a rewarding project.
