1975 MG B GT V8

This right-hand drive, rubber-bumpered V8 has remained in the same ownership since 2001 and recently been the subject of extensive restoration, during which: the inner and outer sills, passenger and boot floor, rear valance, inner arches, jacking points, rear springs, fuel tank and clutch have all been replaced; the driver's seat refurbished; and the engine bay detailed. The vendor now views the bodywork as "good/fair", the 3528cc engine and overdrive gearbox as "good", but the White paint as "in need of some attention".
