1922 Buick Series 45 Tourer

Registration No: DS 8363

Chassis No: 842626

Mot Expiry: June 2014

Finished in cream and black with grey leatherette interior we are advised this left-hand drive example of Buick's five passenger 45 open tourer was restored in America in 1989/90 to "concours condition". In the current ownership since 1997 it has been used for many weddings and is described as having "sound, good" bodywork, "good" paintwork and "good" interior trim whilst the gearbox is "good, with no problems". The six-cylinder 3900cc engine is said to be in "good order". The rear brake bands have recently been relined. Just serviced, it will be driven to the auction and is offered with Swansea V5 document and current MoT to June 2014.
