

## **Donington Park (154)**

Wed, 24th Feb 2016, Donington Park

### **Lot 13**

**1991 Alfa Romeo Spider 2.0 S4 Automatic**

**Registration No:** J607CNO

**Chassis No:** ZAR115000\*06010115

- Imported from Japan c.2013 with rare automatic transmission option

- LHD, Tan upholstery, 54,000 Km recorded, air-con, power steering

- Reportedly 'good' (transmission, electrics, trim) to 'very good' (body, paint, engine)

This rare Alfa Romeo was first registered in England during June 2014 having previously enjoyed the favourable climate of Japan. Due to a life away from salty roads the vendor is able to describe the body as being in 'very good' condition, pointing out to us during our viewing how close and even the panel gaps of the car were. With this car's rare combination of classic Italian convertible design, twin-cam engine, automatic transmission, power assisted steering, and air conditioning, we struggle to think of a more ideal classic car to use on our congested island, especially in cities. This beautiful Pininfarina designed Spider is UK registered and attractively offered for auction at no reserve.
