Chassis No: HMD1338492

Mot Expiry: Exempt

- 110,000 recorded miles

- Current ownership since 2009

- Comprehensive history file that includes the original buff logbook

Further info:

This very original-looking 1500cc MG A was purchased new in September 1957 by a Hertfordshire gentleman for his wife. Six years later, registering 22,000 miles, it was sold to the son of some friends and neighbours, who shared the car with his brother until it was purchased by the vendor in 2009, who has cherished it ever since. However, retirement to the West Country and a lack of garage space means further retention is impractical, and he is now offering the MG complete with a comprehensive history file that includes the car's original buff logbook, and invoices for servicing and remedial maintenance dating back to 1963. Total mileage has now surpassed 110,000, and the vendor volunteers that, although very sound, the car's paintwork and interior would now benefit from a degree of TLC. He is offering the purchaser the opportunity to also acquire the Coupe's original registration number, '8 LML'.
