'McQueen at Le Mans, 1971'

A large format true-photographic monochrome print depicting 'The King of Cool' offering a two-fingered salute, stood alongside his Porsche 917. Scanned from an original, then digitally enhanced, colour-balanced and edited to remove all imperfections. Backed to acid-free board and baked with a satin heat seal to provide a rich textured lustre finish, which acts as a surface protection barrier. Professionally framed in a classic black, real wood frame, backed, sealed and ready to hang. 80x60cm
