**Motor Car Location:** Derbyshire

- Only 75,000 miles from new
- Full book pack with service book
- History file with old MOT certificates
- First owner 10 years, second 9 years

After 13 years of Cherokee production in original form, February 1997 saw the Cherokee receive updated exterior and interior styling. Both the two- and four-door bodies remained in production, receiving a steel liftgate (replacing the fiberglass one used previously), restyled taillights, additional plastic moulding along the doors, as well as a new front header panel that featured more aerodynamic styling. The spare tire remained mounted to the interior rear quarter panel.

This rare 4.0 litre straight-six version with automatic gearbox was only produced between 2000 and 2001. This example has been fitted with the factory extras of leather trim and alloy wheels. With only 75,000 miles and three former keepers from new, it is offered with a full UK V5 along with two sets of keys.
