- Just three former keepers and current ownership from 2018
- Desirable 6-speed manual gearbox
- Last serviced at 57,047 miles by Mangoletsi Alfa Romeo, Knutsford

The Type 939 Spider is widely regarded as the 6th generation of Alfa Romeo Spiders, the first version of which was released in 1966. The New Spider version was launched at the 2006 Geneva Motor Show, where it also received the "Cabrio of the Year" award and production ran until November 2010. Based on the Brera coupe, it seats two passengers rather than four passengers as in the coupe. Originally Alfa Romeo offered two engines: the 2.2 L straight-4 and 3.2 L V6 JTS engines — the JTD common rail turbodiesel was introduced at the 2007 Geneva Motor Show and was offered with the options of either six-speed manual or automatic transmissions.

Manufactured in 2007 and supplied new to the United Kingdom, this Spider JTS is fitted with the 2.2-litre straight-four JTS engine mated to the desirable six-speed manual gearbox. Finished in the attractive colour combination of Red paintwork with Black leather interior upholstery, 'MA07 XSZ' has covered only 57,258 miles from new (at time of consignment). Entering current ownership in 2018, the Alfa Romeo has had just three former keepers. Last serviced at 57,047 miles by Mangoletsi Alfa Romeo in Knutsford, with further service records present from Mangoletsi. Offered with current V5C and is due to be supplied with a fresh MOT certificate and have paintwork completed to the front bumper, driver's mirror and number-plate holder in time for the sale.
