Estimate: £5000 - £7000 + Fees

1994 Mercedes-Benz E220 Coupe

Registration No: T.B.C

Chassis No: WDB1240422C067644

MOT: March 2022

Motor Car Location: Nottinghamshire

- Understood to have formed part of a private collection between 2005 and 2020
- Only four owners from new
- Offered with stamped service book displaying large quantities of Mercedes-Benz main dealer history
- 81,573 miles from new (atoc)

The introduction of the 200E and 220E models in 1992 made the Mercedes-Benz E-Class (E='Executive') W124 bodyshell available with the smaller, more economical engines of 'Compact' C-Class. These new engines featured twin overhead camshafts, four valves per cylinder, and variable inlet timing, and Mercedes claimed that their more efficient combustion both improved fuel economy and reduced emissions. In October 1993 there was a change of name for the E-Class models, the 'E' becoming a prefix rather than a suffix. At the same time, the cars were mildly face-lifted, the most obvious change being a frame-less grille recessed into the bonnet panel. In this form the W124 saloon lasted only two years, being replaced in mid-1995 by the W120.

This E220 Coupe was manufactured in 1994 and was first registered in the United Kingdom on the 25th of January 1994 on registration number '1 EHY'. Fitted with the 2199cc straight-four engine mated to a four-speed automatic transmission, the E220 is finished in Polar White with Blue cloth interior upholstery. Having covered just 81,573 miles from new (at time of consignment), the Mercedes has had only four owners from new and is understood to have been formerly included in a private collection between 2005 and 2020.

The Coupe was specified from new with an electric sliding sunroof and windows, leather-trimmed gearknob and steering wheel, rear headrests, paintwork preservation treatment, folding front armrest and walnut wood trim. Accompanied by the book pack including owners handbook, service directory, dealer map and stamped service book which displays fourteen entries, thirteen of which are from Mercedes-Benz main dealers; Mercedes-Benz Huddersfield; Charles Sidney Mercedes and Mercedes Derwent of Bradford. Most recently provided with a service at 81,033 miles (in March 2021) including new plugs, the E220 is offered with a current V5C and the aforementioned book pack.

PLEASE NOTE: The registration number shown in the images is not included in the sale.
