When it comes to legendary workhorses, few have surpassed the overall quality and reliability of the Chevrolet C/K pick-up. Since 1999 all full-size Chevy pickups have been designated 'Silverado', but from 1975 to 1999, Silverado simply denoted an optional trim level to the C/K pick-up - top-of-the-line. This example was manufactured in 1986 and was produced with power steering, electric windows and air conditioning. Presented in Grey with complementary Grey cloth interior upholstery, the 5.0-litre V8 engine is allied to the automatic transmission. Imported into the United Kingdom in 2003, the pick-up has been retained in current ownership from 2003 onwards, with just one former UK keeper.

Subject to much recommissioning work before exporting from America to the UK, the Chevrolet has benefitted from extensive further expenditure and improvement while in the current ownership. Work completed has included a full interior refresh (with retrimmed seats, new headlining, door cards, carpets, and steering wheel); a gearbox overhaul in 2012; a new cedarwood bed; new shock absorbers; fan belts; twin tank switches; and much mechanical fettling amongst other improvements. The 'short-bed' is accompanied by a large history file comprising of a vast collection of invoices, a large number of previous MOT certificates dating back to 2003, spare keys, a no advisory MOT certificate until June, a previous V5 document and a current V5C.
