- Current registered ownership since 2011 and only four former keepers
- A mere c.46,000 miles from new
- Offered with the original book pack included the service book
- Desirable petrol variant of the W220

The Mercedes-Benz S-Class is a luxury saloon that was officially introduced in 1972 with the W116 S-Class which succeeded previous Mercedes-Benz models dating back to the mid-1950s. As the flagship of the Mercedes-Benz lineup, the S-Class has debuted many of the company's latest innovations, including drivetrain technologies, interior features, and safety systems such as seatbelt pre-tensioners. The W220 S-Class was completely restyled in 1999 with a body that was slightly smaller and lighter than its predecessor. As with each new S-Class, the W220 brought in new innovations such as Airmatic air suspension and Active Ventilated Seats which used miniature fans in the seats to move air through perforations. S-Class safety features included innovations in active safety (accident avoidance) including ABS braking in 1978, traction control, and Electronic Stability Program (ESP). Passive safety features included crumple zones in 1957, three-point seatbelts in 1965, collapsible steering column, and strengthened occupant cell, resulting in better protection during heavy impacts.

Supplied new to the United Kingdom, this desirable petrol S 320 was first registered on the 7th of February 2003. Fitted with the 3199cc V6 engine allied to the five-speed automatic transmission, the Mercedes-Benz is finished in Bright Silver Metallic with Black leather interior upholstery. 'YY52 NBJ' has covered a mere c.46,000 miles from new (at time of consignment) and has had only four former keepers from new, residing in current registered ownership since 2011. Specified from new with optional extras including spoked alloy wheels, Nokia telephone, heated screen wash system, anti-theft system, front heated seats with memory package, CD changer and glass sunroof, amongst much more. 'YY52 NBJ' is offered with the original book pack which includes a stamped service book displaying seven entries presented in the Mercedes-Benz wallet, along with a current V5C document.
