The BMW E46 is the fourth generation of the BMW 3 Serie range of compact executive cars, which was produced from 1997 to 2006. First introduced in November 1997, the E46 was available in sedan, coupé, convertible, station wagon and hatchback body styles. The E46 line-up was phased out starting from late 2004, following the introduction of the E90 3 Series sedans. However, the E46 coupé and convertible body styles remained in production until August 2006.
