- 1 previous keeper and current ownership from 2003
- Fully documented service history covering the 60,250 miles to date
- Recent c.£1,300 invoice on file for check over and service

#### Further Info:

'A16 TKO' was first registered by BMW dealer Sandal Bayern Ltd of Sheffield in November 1985, since when it has had just two gentlemen keepers. It comes with a fully documented service history covering the 60,250 miles travelled to date. The work was carried out by franchised garages up until 2002 and marque specialists thereafter - the latter includes a £1314.04 visit to John Gagen of Bury St Edmunds in preparation for this sale. This is a remarkably presentable, original car, the only additional work done to which has been the replacement of the speedometer (1988) and front wings (1998) by BMW. It is resplendent in Arctic Blue Metallic complemented by Pearl Beige leather trim and nowadays rides on Alpina style alloy wheels - the original Raeder rims and tyres are available from the vendor. 'A16 TKO' comes with the owner's books, a trio of brochures, original radio/cassette, build sheet, old MOTs and current MOT to November 16th 2015.
