This automatic transmission, home market XK8 sports Blue bodywork complemented by Blue interior trim. It comes without service history but is classed by the vendor as having an `excellent' V8 engine, and `very good' gearbox, bodywork and paintwork. Though the interior is generally fine, the driver's seat is evidently displaying `slight signs of wear'. The odometer currently stands at an unwarranted 106,000 miles. These shapely Jaguars represent extraordinary value in today's market and good ones are increasingly being bought as long term classics.
